Beleza, Design, Perfeição. Quando você adquire um produto com a marca Moldurarte, você não leva apenas um produto de qualidade e design invejáveis, você adquire talento, pesquisa, desenvolvimento, modernidade e carinho pelos detalhes.

A transformação da madeira em molduras é um trabalho praticamente artesanal, as mãos humanas começam a dar o formato, as texturas e os acabamentos nos perfis de madeira.

A Moldurarte é especializada em produzir arte em madeira, através de mais de 400 colaboradores, divididos em mais de 30 setores em um parque fabril de mais de 40.000 metros quadrados de área de produção.

Das molduras mais simples às mais elaboradas, todo o processo tem como excelência, a qualidade, por isso a Moldurarte tem investido constantemente em equipamentos de última geração e na capacitação de seus profissionais. Uma fusão perfeita entre homem e máquina, para oferecer aos clientes, produtos exclusivos que unem a beleza estética e a perfeição técnica.

Quando você vê um produto Moldurarte, com certeza você não imagina tudo o que existe por trás da beleza e da qualidade que estão diante de seus olhos. Mas é assim, com dedicação, tecnologia, inspiração e muito talento, que os produtos da marca Moldurarte são produzidos e levados até você com sentimento único de exclusividade, beleza e qualidade.

Moldurarte, a maior e melhor Indústria de Molduras da América Latina.

Beauty, Design, Perfection. When you get a Moldurarte brand product, you are not getting just a product of quality and design, but also one based on talent, research, development, modernity and care for details.

The transformation from wood to moldings is a work which requires much craft. Human hands begin to give format, textures and finishes to the wooden profiles.

Moldurarte is a specialist in producing art in wood, with over 400 collaborators which are divided throughout 30 sectors of an industrial complex of over 40.000 square meters of production area.

From the simplest mouldings to the most elaborated ones, the process requires, as it's primary objective, that the excellence of quality be maintained. This is why Moldurarte is continuously investing in the latest generation of equipment and in the training of it's professionals. A perfect fusion between man and machine, to offer our clients, exclusive products that bond esthetic beauty and technical perfection.

When you see a product from Moldurarte, it is almost certain that one cannot imagine all that there is behind the beauty and quality before one's eyes. But it is like that, with dedication, technology, inspiration and lots of talent, that the products from the brand Moldurarte are produced and presented to you, with that unique feeling of exclusivity, beauty and quality.

Moldurarte - the biggest and best Molding Industry of Latin America.

Hacienda Molduratte - Bom Retiro/SC

Produção Ecologicamente Correta.

Tudo começa com a criação das mudas de árvores. As sementes são germinadas em um viveiro próprio. As mudas são plantadas e cultivadas em 6 fazendas de cultivo, totalizando 3.982 hectares onde estão plantadas mais de 2.500.000 árvores das espécies Pinus e Eucalipto. Somente com mais de 15 anos de cultivo, essas árvores são extraídas para entrarem no processo de produção de molduras.

A preocupação com o meio ambiente é constante, todos os efluentes líquidos são tratados através de duas estações de tratamento, reduzindo ao máximo a emissão de poluentes e garantindo a biodiversidade e o equilíbrio dos ecossistemas das regiões onde atua. Todas as atividades da empresa são licenciadas e averbadas junto aos órgãos de controles ambientais. Com estas ações, em 2008 conquistamos a certificação do selo FSC em nosso processo produtivo, que é fornecido somente a indústrias que processam e comercializam produtos florestais com matéria prima proveniente de florestas bem manejadas, o que permite a Moldurarte produzir molduras com o selo verde.

Eco-Production.

Everything starts with trees seedlings. The seedlings are grown in a nursery garden of our own. They are planted and grown in 6 farms, with a total of 3.982 hectares where over 2.500.000 trees of Pine and Eucalyptus species are planted.
Only after 15 years of growth these trees are extracted to enter the process for producing the moldings.
The concern for the environment is continuous; all the liquid effluents are treated in two treatment stations, reducing the maximum amounts of emissions of pollutants and, thus, guaranteeing in this way the biodiversity and balance of the ecosystems of the regions that we manage.
All of the company's activities are licensed and endorsed by environmental control organizations. Due to these actions, in 2008, we were awarded the FSC Seal Certification for our production process. This Certificate is only granted to industries that process and use the raw material products originating from properly managed forests, something that allows Moldurarte to produce moldings with the Green Seal Logo.

Producción Ecológicamente Correcta.

Todo comienza con la crianza de plántulas de árboles. Las semillas son germinadas en un vivero propio. Las plántulas son plantadas y cultivadas en 6 haciendas de cultivo, con un total de 3.982 hectáreas donde están plantados más de 2.500.000 árboles de especies Pino y Eucalipto.
Solamente después de los 15 años de cultivo, esos árboles son extraídos para entrar al proceso de producción de molduras.
La preocupación para con el medio ambiente es constante, todos los efluentes líquidos son tratados a través de dos estaciones de tratamiento, reduciendo al máximo la emisión de poluyentes y garantizando la biodiversidad y el equilibrio de los ecosistemas de las regiones donde actúa.
Todas las actividades de la empresa son licenciadas y endosadas junto a órganos de control ambientales. Gracias a éstas acciones, en 2008 conquistamos la certificación del sello FSC en nuestro proceso productivo, que es otorgado solamente a industrias que procesan y comercializan productos forestales con materia prima proveniente de bosques bien manejados, lo que permite a Moldurarte producir molduras con sello verde.

Chegou o **Foam Board** Moldurarte!

A melhor qualidade para o acabamento de seus quadros.

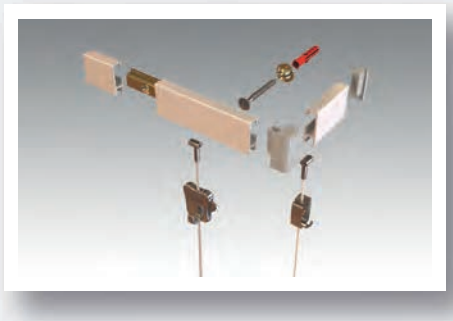

O Foam Board é uma placa de espuma sintética (poliestireno) super leve, laminada com papel liso dos dois lados. Padrão Americano. Possui PH Neutro: cria uma barreira contra umidade e agentes externos, evitando que a imagem se danifique. AcidFree: Livre de acidez ou de qualquer outro produto tóxico.
possui um pouco de felxibilidade o que evita vincar com facilidade. Pode ser utilizado como passe-partout, apoio na montagem de gravuras em molduras, acabamento de fundo de quadros e porta-retratos.
Comercializado nas cores: Branco, Branco Adesivo e Preto.
Espessuras de 3 e 5 mm.

Foam board is a sheet made of a super light synthetic foam (polyethylene), laminated with smooth paper on both sides. As it has a neutral PH, it creates a barrier against humidity and external agents, avoiding the damage to the engraving or painting due to humidity. It can be used as a passe-partout, which is used as a support for the mounting of engravings in moldings and also as a finish for the backgrounds of wall decor frames and photo frames.
Available in colors: White, Adhesive White and Black.
Thickness: 3 and 5 mm

El Foam Board es una placa de espuma sintética (polietileno) súper leve, laminada con papel liso en ambos lados. Por tener PH neutro, crea una barrera contra la humedad y agentes externos, evitando que el gravado o la pintura se dañen debido a la humedad. Puede ser utilizado como passe-partout, apoyo en el montaje de gravado en molduras, acabamiento de fondo para cuadros y portarretratos.
Comercializado en los colores: Blanco, Blanco Adhesivo y Negro.
Grosor de 3 y 5 mm.

Pendurar um quadro na parede nunca foi tão fácil.

MOSTRUÁRIO DE MOLDURAS

A ambientação de qualquer loja é capaz de proporcionar uma experiência de compra agradável e garantir a conversão em vendas, por isso dar atenção ao visual da loja é fundamental. Nas molduraria a principal vitrine é o mostruário de molduras. Deixá-lo de forma organizada e atraente é fundamental para tornar o atendimento mais rápido e eficiente.
Sugerimos dividir o mostruário em três espaços (lançamentos – linha – promoções) e movimentar as molduras nestes três espaços da seguinte forma:

SAMPLE FRAME
The atmosphere of any store should be able to give a nice shopping experience and guarantee a sale, because of this paying attention to visual aspect of the store is fundamental. For frame stores the main showcase are the mouldings samples. You should have them organized in an attractive way, this is essential so that the setup gives more efficient outlook to the store and product can be located faster.
We suggest dividing the samples into 3 spaces (new releases – line items – and promotion) and moving moldings between those spaces as follows:

MUESTRARIO DE MOLDURAS
La ambientación de cualquier tienda es capaz de proporcionar una experiencia de compra agradable y garantizar la conversión en ventas, por eso prestar atención a lo visual de la tienda es fundamental. En las tiendas de molduras la vitrina principal es el muestrario de molduras. Téngalo de forma organizada y atrayente, esto es fundamental para que la atención sea más rápida y eficiente.
Sugerimos dividir el muestrario en 3 espacios (lanzamientos – línea – promociones) y mover las molduras en estos espacios de la siguiente forma:

Procure organizar as molduras no mostruário por acabamentos agrupando todas juntas. Ex: molduras douradas com douradas, pratas com pratas, brancas com brancas, pretas com pretas, etc. Além de organizar, vai permitir avaliar as quantidades de acabamentos em linha e agilizar o atendimento ao cliente que chega solicitando por um determinado tipo de acabamento.

Try to organize the mouldings on the sample case making groups according to the finishes. Ex: gold mouldings with gold, silver with silver, white with white, black with black, etc. Besides having them organized, this will let you know the amount of finishes you have in line and speed up the presentation to the client who comes asking for a particular finish type.

Procure organizar las molduras en el muestrario agrupándolas de acuerdo a las terminaciones. Ej: molduras doradas con doradas, platas con platas, blancas con blancas, negras con negras, etc. Además de organizar, le va a permitir conocer la cantidad de terminaciones que posee en línea y agilizar la atención al cliente que llega solicitando una tipo determinado de terminación.

Lançamentos
Moldurarte

Moldurarte
Moldurarte Hoffma maxima Incomarte Catarinense

Promoções
Moldurarte

Todas as novidades devem ser expostas no espaço de lançamentos. Os consumidores são atraídos por novidades e ter sempre novos modelos de molduras neste espaço proporcionará a esses clientes maior identificação com os produtos. As molduras devem permanecer neste espaço por no máximo 90 dias, transferindo-as depois para o espaço das molduras de linha e preenchendo este espaço com outras novidades.

New Releases: all new mouldings should be exposed in this space. Consumers are attracted to new things, and having always new moulding models in this space will give your clients a feeling of being more identified with the products. Mouldings should stay in this space for no more than 90 days tops, moving them to the line item mouldings space and filling the space left with other releases.

Lanzamientos: todas las novedades deben ser expuestas en el espacio de lanzamientos. Los consumidores son atraídos por novedades y tener siempre nuevos modelos de molduras en este espacio proporcionará a esos clientes mayor identificación con los productos. Las molduras deben permanecer en este espacio por no más de 90 días máximo, pasándolas después al espacio de molduras de línea y llenar ese espacio con otras novedades.

Neste espaço permanecem as molduras que a molduraria tem em linha com vendagem que justifica a sua manutenção em linha.

Line Items: In this space belong the mouldings the store keeps in stock, with a sale rate that justifies its permanence.

Línea: en este espacio permanecen las molduras que la tienda tiene en línea con una venta que justifique su mantención en línea.

As molduras com pouco giro ou com dificuldade de vendas, devem ser transferidas para o espaço reservado para as promoções objetivando promover a venda do estoque remanescente, diferenciando o preço concedendo algum desconto adicional.
O objetivo é atrair os consumidores que se encantam com promoções, aumentando dessa forma a venda de molduras que até então estavam com baixo ou sem giro.

As molduras com pouco giro ou com dificuldade de vendas, devem ser transferidas para o espaço reservado para as promoções objetivando promover a venda do estoque remanescente, diferenciando o preço concedendo algum desconto adicional. O objetivo é atrair os consumidores que se encantam com promoções, aumentando dessa forma a venda de molduras que até então estavam com baixo ou sem giro.

Promotions: Mouldings with little movement or difficult to sell, should be transferred to the reserved space for promotions aiming to promote the sales of the remaining stock, with a differentiated price, giving some additional discount. The objective is to attract consumers who like promotions, this way, increasing the sales of the mouldings that until then were having little or no movement.

m 2054	34

As cores das molduras podem sofrer uma variação mínima devido a impressão e ao tipo de papel. A numeração da milimetragem dos perfis respeitaram as dimensões reais, porém os tamanhos, tanto das imagens como dos desenhos técnicos das molduras, aplicados neste catálogo, correspondem a aproximadamente 60% do tamanho real dos produtos.

Dom Pedro I - 9034

Perfil Dom Pedro I

Dom Pedro I - 9035

Dom Pedro I no dia 07 de setembro de 1822 as margens do riacho Ipiranga, em São Paulo, proclamou o chamado"Grito da Independência" a frente da sua escolta: "Independência ou Morte!". Deixando de ser Colônia de Portugal passando a ser Império. A Moldura Dom Pedro I traz o luxo e o requinte do clássico em peças rebuscadas que ornamentam a arte com extremo esmero nos detalhes.

Rei Luiz - 8669

Perfil Rei Luiz

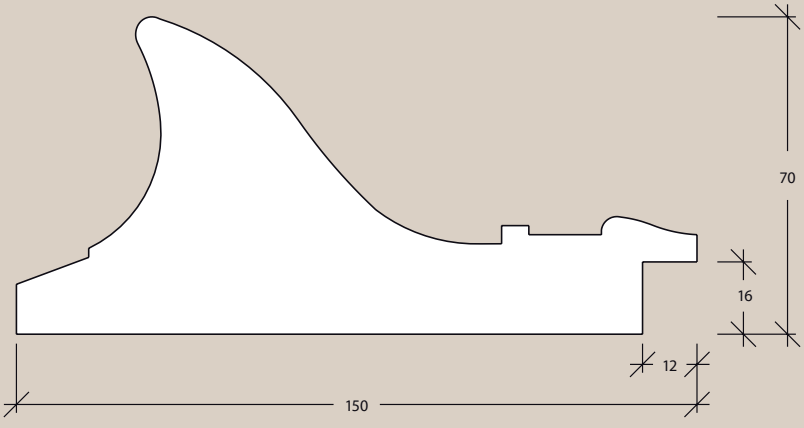

Rei Luiz - 8668

O Rei Luis XIV teve o mais longo reinado de um monarca na França e é considerado o inventor da Moda como a conhecemos hoje. A indústria de móveis, tecidos, roupas e jóias que ele estabeleceu baseada no luxo e com tendências sazonais, não só assegurava muitos empregos como fez da França a capital da moda no mundo, dando origem a um valioso mercado interno e de exportação extremamente lucrativos.

A moldura Rei Luiz foi lançada em 2015 em Homenagem ao Sr. Luiz Antonio Góes Presidente da Moldurarte.

Perfil 2046

Pintado por Leonardo Da Vince em 1503, a Monalisa é o quadro mais famoso do mundo e é surpreendentemente pequeno para o alvoroço que causa: mede apenas 77x53cm. O Perfil 2064 da MOLDURARTE é uma réplica da moldura que emoldura o quadro da Monalisa.

350-8486

ALTO BRILHO

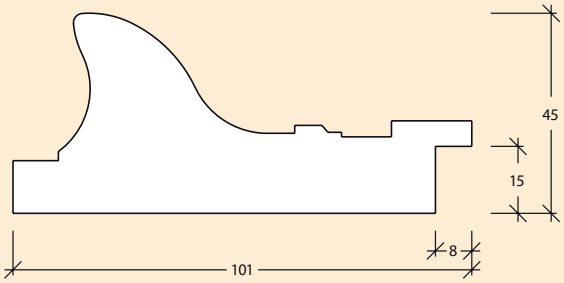

350-8485

350-141

350-149

Perfil 350

As tonalidades sólidas e fortes como laranja, verde, vermelho, amarelo, azul, rosa, lilás combinadas com o preto e o branco, além de cores mais neutras como bege, creme, cru e castanhos claros são uma referência da paleta de cores tipicamente retrô, que fazem referência ao estilo de vida dinâmico, de elevado impacto visual das décadas 50, 60 e 70, que sobrevive com muita pompa e circunstância ao passar do tempo. Decorar no estilo retrô é um enorme desafio, mas também um grande prazer, possibilitando ambientes únicos e cheios de estilo.
